Textbook Homework for Chemistry 204

Chemical Principles was written for Chemistry 202-204 and similar courses at other universities. The text assumes a prior knowledge of chemistry equivalent to that in a good, one-year high school chemistry course. The end-of chapter problems are organized such that the more routine problems are given first, arranged by section. You should be able to do all of these problems after reading and understanding the chapter. The more difficult problems that require more creativity are given under the "Additional Problems" heading, with the most difficult problems under the "Challenge Problems" heading. You will probably not be able to do all of these problems the first time you try them. If you cannot do a particular problem, reread the appropriate material and try again. By the time we finish with the material in a particular chapter, we expect that you will be able to do all of the concepts in these problems at the end of that chapter. You are expected to understand all of the concepts in these problems.
