This program contains an unofficial list of candidates for graduation on May 17, 2009 and a list of graduates who received degrees in August 2008, October 2008, and December 2008. Due to printing deadlines, the names of some degree recipients may not appear, while the name of some degree candidates who have not completed their degree requirements may be included.
Dr. Jay Luly joined Enanta in July 2003, bringing over 20 years of experience in large pharma, mature biopharmaceutical, early-stage biotech, and life science venture capital environments. In March 2002, he joined Oxford Bioscience Partners as an Entrepreneur in Residence.

Prior to joining Oxford, Dr. Luly held the positions of Senior Vice President, R & D Operations and Senior Vice President, Discovery Strategy and Operations at Millenium Pharmaceuticals, following the company’s merger with LeukoSite, Inc., where he served as Senior Vice President, Drug Discovery and Pre-Clinical Development. Prior to joining LeukoSite, he held a number of senior drug discovery positions at Abbott Laboratories from 1983 to 1997. His R & D efforts have resulted in several therapeutics reaching clinical development, and he is an inventor on over 50 issued U.S. patents and has authored over 150 scientific publications, abstracts, and review articles.

Dr. Jay Luly earned a B.S. in chemistry from the University of Illinois, Urbana-Champaign and a Ph.D. in synthetic organic chemistry from the University of California, Berkeley. He serves as a member of the Board of Trustees for the Boston Biomedical Research Institute.

Please join us for a reception in the Studio Theatre of the Krannert Center immediately following the ceremony.
